### OPTIONAL COMPONENTS – PEDESTAL ONLY:

- Additional PC options
- Fingerprint biometric scanner
- Base plate

\*EMV chip and pin payment models and dimensions available upon request

## Combining Stellar Design and Performance

The Posiflex brand is best known for outstanding design and reliability in Point of Sale terminals and components. In 2016, Posiflex acquired KIOSK to leverage the best of both companies, resulting in a new self-service platform that merges superior kiosk design with highly durable Posiflex transaction components.

The enclosure features an All-in-One PC and PCAP touchscreen with a minimalist bezel, providing a contemporary and sophisticated user interface presentation. The Stellar Series is available as a free-standing pedestal or a countertop, providing modular deployment options in the same standardized family. The enclosure comes with preferred components common to most self-service transactions, including a scanner and receipt printer, and can be customized with EMV payment devices and more. As with all KIOSK designs, the Stellar is configured for easy maintenance with hinged doors and simple component access. ADA compliant design ensures self-service access to all your valued customers.

### About Posiflex

- Designer and manufacturer of Point-of-Service and industrial touch terminals
- Revolutionary technology, reliable quality, reasonable pricing and recognized service
- Delivers reliable terminals for maximum uptime and lower total cost of ownership
- Comprehensive suite of peripherals and services
