

## Fadó Irish Pubs

### Cheers to the Cloud!

Posiflex Teams Up with ITWERCS & Postec for Irish Pub Chain

Posiflex has recently teamed up with ITWERCS and Postec to provide a cloud-based POS solution to Fadó Pubs, a prominent chain of Irish pubs in the U.S.

Why does this matter? As the restaurant industry re-invents itself with newer and better ways to serve customers, a cloud-based solution becomes essential. For Fadó Pubs, their establishments are constantly filled with large crowds eager to watch their favorite sporting events or enjoy a night on the town with friends and fellow like-minded patrons.

To accommodate the huge influx of hungry and thirsty clientele, they needed to be extremely efficient – not with just their staff – but also with their POS setup. They needed to have a network of POS stations and tablets that allow their servers to be more mobile and productive, while ensuring orders were quickly sent and received within the network. In addition, the system needed to be fully integrated with their back office and the rest of the Fadó Pubs network.

#### Cloud to the Rescue

With the help of ITWERCS, Postec and Posiflex, Fadó Pubs is now up and running with a state-of-the-art cloud-based system that would meet and exceed their needs. The combination of an award-winning hospitality platform, industry-leading managed services and reliable hardware have made the move to cloud seamless for the preeminent operator of Irish Pubs in the US.

“During the recent World Cup and other major sporting events, the pubs become the epicenter of a fan experience, often with shoulder to shoulder crowds. The ITWERCS platform running on fanless touchscreen units and tablets, with seamless integrations with corporate enterprise payroll and accounting on a

secured network” fulfilled the vision given by Kieran McGill CEO of Fadó Irish Pubs & Restaurants.

“The ITWERCS Team were incredibly supportive during the installation and testing phase of the project” said David Shaw, Chairman of the Board of POSTEC. “We’ve known the team and their reputation for solid service for years, it’s great to see such a reliable product backed by professional support.” ■

#### About ITWERCS

ITWERCS is the new leader in cloud-based Point of Sale and Hospitality Management. The innovative platform was built over the past 14 years inside of a major US brand running hundreds of locations. The platform integrates Point of Sale, Inventory, Scheduling, Online Ordering, Mobile Applications, Delivery Integration, Kitchen Display and most importantly, all built on one codebase focused on managing and automating Marketing in a measurable manner. #### About Fadó Pubs

Fadó (pronounced fuh-doe) Irish Pub was the first Irish pub to be designed and constructed in Ireland and shipped and installed in Atlanta. Fadó is steeped in tradition but is not bound by it. You’ll experience genuine Irish hospitality, your favorite Irish food and drink as well as the best European sports year-round. You’ll also get from-scratch cooking, craft beers from local breweries and quality, house-made cocktails. Fadó has been voted ‘Best Of’ by a number of local and national publications. Fadó currently has locations in Atlanta, Annapolis, Chicago, Columbus, Miami, Philadelphia, Seattle, Stamford, New York, Dallas and Abu Dhabi.
