Posiflex Professional Services Solutions

SPEED | RELIABILITY | ENERGY SAVINGS

Introducing a comprehensive suite of solutions to empower your business

Obtain expert assistance to diagnose a hardware issue and prevent unnecessary RMA submissions. Our talented support technicians ensure you always have complete thorough troubleshooting at your disposal

We understand your business and what drives it. Our philosophy is to provide revolutionary technology, reliable quality, reasonable pricing and recognized service in touch screen technology and Point-of-Service. Our mission is to provide you with a suite of excellent service offerings that enhance your customers' interactions with you and improve their overall experience, while reducing your total IT costs. Our diverse and extensive experience, coupled with a staff of seasoned professionals, provides your business with a service concierge that thoroughly understands your business needs. By giving you the competitive edge, we can transform your business results.

Our Product Development Team works closely with ISV partners to certify applications on various hardware models and peripherals, the creation and maintenance of custom images, and handling any OEM design requests.

Empowering Your Business

Having reliable hardware is just half the battle won. At Posiflex, we want to ensure you complement your hardware longevity with our comprehensive service offerings to ensure your business operations are always optimized and operating at maximum uptime.

Professional Services Team - dedicated to working with you

Integrate and deploy your equipment at individual locations of a nationwide POS roll out

Support your hardware investment with expert maintenance, updates and repairs to protect your total cost of ownership. Our talented Support Technicians ensure complete troubleshooting diagnostics at your disposal. Our Product Development team works closely with your chosen software partner to ensure certifications are current on your hardware and is also able to handle OEM design requests.

Simplify your business with a single accessible point of contact for your professional services needs.

Improve customer satisfaction through maximum uptime performance of your hardware equipment
