FOR IMMEDIATE RELEASE

POSIFLEX'S KS6900 - ISV-CERTIFIED, SELL CONFIDENTLY

The KS6900 has been well received by its software partners and resellers since its recent August launch. Posiflex is pleased to announce the following software partners that have certified the KS6900:

- ASI / Restaurant Manager
- Digital Dining
- Focus
- FuturePOS
- Maitre'D

The KS6900's success is truly attributed to the well engineered design and its Posiflex quality legacy. The KS6900 is the NEW price-power performer in Posiflex's flagship fan-free KS family. The KS6900 Intel® Atom™ 1.8Ghz CPU provides additional power at an incremental cost to run more robust applications.

Hardware is only as good as the applications software it runs. Response from the marketplace on the KS6900 has been overwhelmingly positive.

*Craig Bednarovsky, Director of Sales and Marketing at ASI, confidently states "Posiflex products offer **superior quality hardware** that does not compromise on your performance and **Restaurant Manager software runs smoothly on it**. User friendly and effective software is only one part of the equation; you'll need reliable hardware to complete the POS system that drives your business."*

*Andre Nataf, Senior Business Development Manager for Digital Dining, adds "Posiflex hardware coupled with our software provides an **ideal turnkey solution for our customers**. The KS6900 setup is a breeze without any driver issues. Our software not only runs great but looks great on it. The touch screen is also responsive."*

*Mike Hamm, CEO of Focus POS Systems, states "the KS6900's faster processor speed and ability to increase RAM to 4GB **truly allows Focus POS to run at its best**. For performance, aesthetic appeal, high functionality, KS6900 is the answer."*

*Steve Pritchard, Dealer Manager at FuturePOS, adds "**Our software runs well on the KS6900** and we are sure our dealers will be happy with it as it carries the Posiflex legacy of reliability and durability. With Posiflex products, you get maximum uptime and that is what counts."*

*Mitesh Mandavia, Marketing Coordinator at Posera Systems Inc, states "Our experience with Posiflex products has always been positive and KS6900 surely did not dissappoint. It is **fast and reliable allowing our software to run optimally**. It is also quiet during operation."*

Regardless of application, operation, industry and environment, KS6900 empowers your business to drive profits.

Additional software partners are in the process of the KS6900 certification. If you are a software partner and would like to certify the KS6900, or have recently completed testing, please email marketing.department@posiflexusa.com.

For more information on the KS6900 series <http://www.posiflexusa.com/ks6900.php> or see the KS6915 Maximum Uptime video demonstrating liquid resistance and resiliency at <http://www.posiflexusa.com/KS6915uptime/>

KS6900 configuration choices include 15" or 17" screen size, infrared or resistive touch, 1 GB of DDR3 memory standard with a maximum 4 GB DDR3, 6 USB ports, 4 Serial Ports (2 x DB9, 2 x RJ50), RAID 1 option and support POSReady, WinXP Pro, Win7 Pro (32 or 64 bit) and Linux operating systems.
