

Posiflex Customer Benefits

For a quarter century POSIFLEX has designed and manufactured products that represent a full range of POS and touch technology systems. Posiflex contributions are based on commitment to POS and touch technology leadership. Performance, Cost Savings, Technology, Reliability, Green Design, and Exceptional Quality, these attributes never go out of style.

Performance

Kudu is a fast growing restaurant chain. Rigorous staff training and state of the art management systems earned Kudu both ISO: 9001:2000 and HACCP SQF 2000 management systems certificates. Kudu chose POSIFLEX All-in-One touch systems to replace IBM hardware because of **quicker response time**, lengthy warranty and hardware stability for **maximum uptime**.

Saves Me Money

A casual family-friendly restaurant chain needed a cost-effective and easy-to-use touch terminal with a strong warranty to protect its investment. "POSIFLEX terminals increased productivity by minimizing downtime to keep operations running smoothly. We must keep our budget intact. An integral part of accomplishing that is using a **well built terminal at a great price** which ultimately saves the business money!"

Technology Leadership

Nahdi Medical Company is a large retail pharmacy chain serving more than 32 million customers annually. After comparing a number of different POS hardware brands Nahd chose POSIFLEX to replace over 500 NCR systems because of **innovative technology** and price.

Reliability

Massimo Dutti offers quality international fashion design for men, women and children, with a variety of collections ranging from sophisticated urban fashions to casual wear. Massimo Dutti required more speed from its POS terminals and searched to replace an outdated IBM model. POSIFLEX terminals were chosen for superior quality, state of the art design and **reputation for reliability**.

Green POS, Green Earth

Pizza Fusion leads a new niche market combining quick service and organic food offering a unique product offering with an **earth friendly** business approach. Its mission is to uphold the highest level of integrity in all areas, from selection of quality and origin of food, to promote healthy choices for customers and to be conscious of the environment in its business practices. POSIFLEX's fan free green POS system was an easy choice after multiple POS brand comparisons.

Never Take Quality for Granted

POSIFLEX integration and application providers are paramount to providing a total solution. A Posiflex Value Added Reseller states "Offering a powerful, feature rich point of sale software application combined with high-quality terminals backed by POSIFLEX's warranty provides tremendous value to our clients. We understand the **importance of reliable hardware** and how it impacts the overall end-user experience and cost of ownership. It's something we never take for granted."

Style

ALDO entered the high fashion footwear market in 2002 offering a unique shopping experience based on style and ergonomics. In selecting POSIFLEX terminals ALDO looked at the **aesthetic design**, features, processing power, space-saving factors and value for their money.

POS Technology Leadership

POSIFLEX Business Machines

- **Comprehensive Point of Service (POS) offerings** – All-in-One touch terminals, kitchen video systems, high speed printers, customer displays, magnetic stripe readers, barcode scanners and cash drawers
- **Reliability Assured**– many vendors claim reliability - POSIFLEX delivers with its fanless KS Series sub 2% failure rates
- **Industry's First 3 Year Standard Warranty**
- **Customer Care** - Three North American depot service centers, Silicon Valley, Raleigh and Toronto, Canada, provide VAR and customer support with Depot Service, Advance Exchange, On Site Advance Exchange and Extended Warranty offerings
- **Built From the Ground Up** – POSIFLEX is an engineering and design manufacturer of 25 years, with two factories, which are 9002/9001/14001 ISO certified for quality manufacturing
- **Innovative** – 36 worldwide design patents result in hardware designs with fewer points of failure and greater reliability
- **Standards based** – Windows XP Pro and POSReady. In addition, our POS line of terminals is capable of running Windows CE, Windows Embedded for Point-of-Service (WEPOS), and Linux
- **Application Software Agnostic** – Software from certified applications partners are deployed in Retail, Health Care, Hospitality, Manufacturing, Kiosk, Food Service, Government and Gaming at thousands of locations worldwide
- **Green is Good** – Fan free POS terminals are more reliable with fewer points of failure and consume up to 60% less energy reducing operating costs and environmental impact

POSIFLEX Selection Guide

Terminals				
Fan-Free Terminals XP Series	Fan-Free Terminals KS Series	Fan-Free Terminal FT Series	Terminals w/Fans TP Series	Hand Held Mobile MT Series
Sleek low profile and low cost electronic cash register (ECR) replacement with full POS terminal capability, including magnetic stripe reader and thermal receipt printer	Low power consumption suitable for most applications	Configuration flexibility with RAID (fail over) and PCI card slot	Reliable platform for high performance applications	Mobile Wireless WAN / LAN connectivity for warehouse logistics, item location and price look-up
Intel Celeron M 600MHz	Intel Celeron M up to 1.86GHz	Intel Celeron M up to 1.5GHz	Intel Celeron M 1.5GHz or Pentium P4 2.4GHz	Only 1.24 pounds w/ 3.5" LCD screen and lithium battery
POS Ready	Windows XP Pro / POS Ready	Windows XP Pro	Windows XP Pro / POS Ready	WinCE 5.0

UPOS Compliant Peripherals

Customer Displays	Keyboard Attachments	Magnetic Stripe Readers	Cash Drawers	Kitchen Video & Bump Bar	Receipt Printers
Stand alone or terminal mounted, fixed or adjustable height	Up to 65 programmable keys Optional magnetic stripe reader	2 or 3 track, with or without fingerprint reader	6 coin and 5-bill compartments, screw-less tamper resistant design	POS solution for kitchen or bar connecting to any workstation or file server	High speed, high resolution thermal printing

Services

Advance Exchange	Extended Warranty	Technical Support	Onsite Service	Installation	IT SaaS
Overnight replacement	Up to 5 years of total coverage	8x5 phone support	Onsite Tech performs equipment swap and return	Stage and install equipment nationwide	Web based hardware management solution
